

Executive Stock Market Performance Dashboard

Dashboard objectives designed for the Head of Finance to monitor market behavior, track performance, identify opportunities, and support strategic decision-making.

Key Monitoring Objectives

- Overall market trends
- Top-performing and worst-performing stocks
- Sector-wise performance
- Stock volatility and risk
- Trading activity over time
- Investment growth opportunities

Management Decision Goals

- Better investment decisions
- Risk management strategies
- Performance comparisons
- Trend-based forecasting

Executive Insight: The dashboard should provide a high-level financial view with actionable insights for identifying trends, reducing risk exposure, and enabling data-driven investment planning.
